APPENDIX 1. Organization of the Institute

(© This list was made up as of March 31, 2007.)

Department of Administration
- Planning and External Affairs Division
  - Planning Office
  - Financial Planning and Budget Section
  - Objective Planning and Evaluation Section
- General Affairs Division
  - External Affairs Office
  - Secretary Section
  - Press and Community Relations Section
  - International Affairs Section
- Visitor's Office
  - General Affairs Section
  - Documents and Legal Affairs Section
  - Personnel Section
  - Salaries and Welfare Section
  - Financial Affairs Section
  - Cashier Section
  - Account Section
  - Contracts Section

Department of Research Promotion
- Research Promotion Division
  - Graduate School Coordination Section
  - Research Cooperation Section
  - Science Information and Library Section
  - Visitor's Affairs Section
- Safety and Health Management Section
  - Facilities Planning Section
  - Facilities Maintenance Section
  - Parts and Material Section
- Fabrication Technology Division
  - Electronic Engineering Section
  - Mechanical Engineering Section
  - Glass and Ceramics Engineering Section
  - Device System Engineering Section
  - Power Supply Engineering Section
  - Cryogenic Engineering Section
  - Vacuum Engineering Section
  - Heating System Engineering Section
  - Particle Heating Engineering Section
  - Ion Heating Engineering Section
  - Radiation Measurement Engineering Section
  - Electron Density Measurement Engineering Section
  - Ion Temperature Measurement Engineering Section
  - Integrated Control Engineering Section
  - Power Control Engineering Section
  - Data Communication Engineering Section
  - Plasma Central Engineering Section
  - Helical System Research Group
  - Edge Plasma Control Research Group
  - Radiation Measurement Research Group
  - Impurity Measurement Research Group
  - Plasma-Wall Interaction Research Group
  - Plasma Transport Research Group
  - High-Temperature Plasma Physics Research Group
  - Plasma Equilibrium Research Group
  - Energy Transport Research Group
  - Laser Diagnostics Research Group
  - Plasma Fluctuations Research Group
  - Electron Heating Research Group
  - Ion Heating Research Group I
  - Ion Heating Research Group II
  - Plasma Stability Analysis Group
  - Plasma Heating Analysis Group
  - Core Plasma Analysis Group
  - Plasma Transport Analysis Group
  - Plasma Equilibrium Analysis Group
  - Cryogenic Engineering Group
  - Applied Superconductivity Group I
  - Applied Superconductivity Group II
  - Reactor System Group
  - Device System Group
  - Neutral Beam Injection Heating Group I
  - Normal Beam Injection Heating Group II
  - Particle Measurement Group
  - Heavy Ion Beam Probe Measurement Group
  - Nonlinear Dynamics Simulation Group
  - Plasma Confinement Simulation Group
  - Magnetohydrodynamics Simulation Group
  - Plasma Particle Simulation Group
  - Edge Plasma Physics Group
  - Simulation Technique and Modeling Group
  - Division of Academic Research Coordination
  - International Research Collaboration Group
  - Laser Research Coordination Group
  - ITER Research Coordination Group
  - Inter-Institutional Research Coordination Group
  - Division of Industrial-Academic Research Coordination
  - Atomic and Molecular Data Research Center

Department of Engineering and Technical Services
- Department of Engineering
  - Diagnostics Technology Division
  - Control Technology Division
  - Research Operations Division
  - High-Temperature Plasma Physics Research Division
  - Radio Frequency Plasma Heating Research Division
  - Theory and Data Analysis Division
  - Theory and Computer Simulation Center
  - Coordination Research Center
  - Fusion Engineering Research Center
  - Safety and Environmental Research Center
  - Computer and Information Network Center

Department of Large Helical Device Project
- Director-General
- Deputy Director-General
- Public Relations Office
- Research Information Office
- Fusion Science Archive
- Division for Health and Safety Promotion
