ご挨拶

February 1, 2002

Dear Mr. Mori,

On behalf of the Vietnam Atomic Energy Commission, I would like to invite Japanese experts to visit my country for one week from March 18, 2002 to review and discuss with our experts about the nuclear safety regulation system and legal matters.

You may recall that in September last year, Nuclear Power Engineering Corporation sent Mr. Takashima and Mr. Okubo to Hanoi to work with our people in this field. Their visit found very informative and our study is in good progress. It would be most timely and useful, if we could have those experts once again to review our work and give us their comments and advice to the future task. In addition, we would like to study safety requirements for site evaluation in this occasion.

I should be most grateful, if JAIF could arrange the experts and let me know of their names and passport details. A tentative agenda is attached for your reference.

Thank you in advance for your cooperation and looking forward to hearing from you soon.

Sincerely yours,

Vuong Huu Tan
Chairman of the VAEC
