Dear Mr. Mori,

First of all, we would like to take this opportunity to express our sincere gratitude to you and your JAIF staffs for the warm hospitality extended to the Korean delegates during the 85th JAIF Annual Conference on April 22-24, 2002.

We were impressed by your good organization and proceeding for the conference, and also by over 1000 participants from 20 overseas countries and 7 international organizations. We sincerely congratulate you on your successful conference.

Particularly, we thought it was a wonderful arrangement for you to prepare the social meeting for the delegates of both countries. We are sure that it was a really good opportunity for the exchange of view on the promotion of cooperative relationship between the nuclear industries of both countries. We should regret that we could not have more time for talks between both parties due to the restriction of available time. However, since we anticipate that there will be also many participants from Korea for your conference in the next year, we will be able to have more Korean experts from the various nuclear industries if we can have a detailed agenda previously to the social meeting. We also, if available, would like to prepare this kind of meeting for the Japanese delegates who will participate in our KAIF/KNS Annual Conference in the next year.

Once again, thanking you and your JAIF staffs for offering warm hospitality to Korean delegates, we wish you and your Forum continuous success.

Sincerely yours,

Kuk-Jin Bang
