Minato-ku, Tokyo 105-8605
Japan

October 14, 2002

Dear Mr. Mori,

It was my great pleasure to meet with you and your staffs during the 24th JAIF/KAIF Seminar on Nuclear Industry. Also, on behalf of the Korea Atomic Industrial Forum, I would like to express our sincere gratitude to you and your staffs as well as the people concerned for the warm and generous hospitality extended to the Korean delegates during their stay in Japan.

We are sure that the Seminar was very successful and many presentations by Japanese nuclear experts were very informative and useful to Korean participants. Also, we were very pleased to have many discussion and exchange of views on the mutual interest during the Seminar. Particularly, the presentations and discussion between the experts concerned from both countries at the RI Session was a good result to the Korean delegates. Moreover, the technical visit to the Takasaki RI Center of some Korean experts concerned one day before having the RI Session was of a great help to understand the Japanese RI Industry to Korean delegates who want to promote RI Industry in Korea. We sincerely appreciate again your kind consideration arranged for this wonderful technical tour.

Although I could not join the technical tour after the Seminar due to my inevitable schedule, I was very glad to hear that the technical tour was very informative, and the Korean delegates could have warm hospitality at each facility and also have valuable chance to exchange mutual views with the experts concerned at each place.

I believe that this JAIF-KAIF Seminar will promote continuously the cooperative relationship between both nuclear industries. Also, we hope to be able to return your courtesy in the next year's JAIF-KAIF Seminar in Korea.

Once again, thanking you for your all efforts have done for preparation and proceeding of the JAIF-KAIF Seminar, I look forward to having a chance to mee with you again.

Sincerely yours,

Kuk-Jin Bang

Director and Secretary General
