Pr.Dr.André Maïsseau
Editor-in-Chief
WONUC

Dear Prof. Maïsseau,

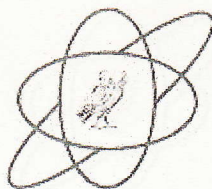

I am pleased to learn that the WONUC is launching a publication of a new scientific journal, the IJNKM. Taking this opportunity, I would like to express respect to you for carrying out such meaningful activities.

With reference to your letter dated April 28 in which you are asking Prof. Nishizawa for the IJNKM Honorary Committee membership, would it be possible to inform us of the names of persons asked to be its members other than Prof. Nishizawa. This information is necessary for him to see if he himself is competent to accept your proposal or not.

I'm looking forward to hearing from you.

Sincerely yours,

Kazuhisa Mori
Executive Vice Chairman

Paris, le 28 avril 2002

Dr Jun-ichi Nishizawa

Tokyo

Dear Dr Jun-ichi Nishizawa,

In the line of the creation of two highly specialized scientific Journals, the *Int. Journal* of Low Radiation (<http://www.inderscience.com/catalogue/l/ijlr/indexijlr.html>) and the *Int. Journal* of Nuclear Desalination, (<http://www.inderscience.com/catalogue/n/ijnd/indexijnd.html>) and in the frame work of a large concern about improvement of nuclear knowledge for the peaceful uses of nuclear energy and the development of nuclear sciences and technologies, I am pleased to announce the creation of a new scientific journal, the *International Journal of Nuclear Knowledge Management - IJNKM*.

It aims to provide a highly professional and authoritative source of information in the field of nuclear sciences, technologies and management. The Journal will be an interdisciplinary forum, which will establish channels of communication between nuclear and non-nuclear experts & managers, who act in the same fields of expertises. The scope of IJNKM is broad, ranging from theorists and experimentalists in social sciences and technical sciences willing to optimize the nuclear socio-economic context and background.

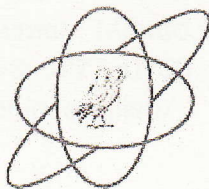

IJNKM will be published in English, initially four times a year, by Inderscience Publishers. It has strict refereeing criteria and highly professional standards.

Due to your large skill in Nuclear Technology Management, I will be delighted if you would agree to be member of the Honorary Committee. Your main task will be advice the general policy of the Journal and to propose members to the editorial and scientific to help for enlarging it to some international well known experts willing to contribute to the success of aims of *IJNKM*. You will find attached a presentation of the Journal which already had a presentation on internet at <http://www.inderscience.com/catalogue/n/ijnkm/indexijnkm.html>. (現在(新)172冊)

Your answer by E-mail at: andre.maisseu@wanadoo.fr will be welcome

Yours faithfully,

Pr Dr André Maisseu

International Journal of Nuclear Knowledge Management (IJNKM)

Editor-in-Chief

Professor Dr. André Maisseu

WONUC,

49, rue Lauriston, 75116 Paris, France

E-mail: andre.maisseu@wanadoo.fr

Aims and Scope

International Journal of NUCLEAR KNOWLEDGE MANAGEMENT – IJNKM is a peer-reviewed journal dedicated to the publication of research articles, review papers and technical notes in all domains related to improvement of the peaceful uses of nuclear energy and the development of nuclear sciences and technologies connected knowledge. It aims to provide a highly professional and authoritative source of information in the field of nuclear sciences, technologies and management.

International Journal of NUCLEAR KNOWLEDGE MANAGEMENT – IJNKM is an interdisciplinary forum, which establishes channels of communication between nuclear and non-nuclear experts & managers, who act in the same fields of expertises in social sciences (finance, accounting, law, communication, human resource management, quality management, standardisation, strategy, geopolitics, etc;) and sciences & technologies, but also about social questioning as nuclear waste management, nuclear transportation, proliferation questioning, risk management, social acceptability, regulatory and policy aspects, risk estimation, public perception, sustainable development, etc.

Intending to be a focal point for managers, policy makers, government agencies, academic, research institutions, industry, which are concerned with nuclear energy policy, the scope of *International Journal of NUCLEAR KNOWLEDGE MANAGEMENT* – IJNKM is broad ranging from theorists and experimentalists.

Scientific disciplines

- Law and Regulation
- Geopolitics and Political Science
- Economic, Finance and Management
- Social Sciences and Human Sciences
- Communication.
- Physical and Engineering Sciences
- Life Sciences
- Ecological Sciences
- Sustainable Development

Form of the publication

IJNKM is published in English, initially four times a year, by Inderscience Publishers. It has strict refereeing criteria and highly professional standards. In addition to the publication of scientific articles, a review of publications (books and theses) and the announcement of international conferences pertaining to the topics addressed in the journal.

Readership

A fair balance will be sought between:

- special issues addressing specific topics, developing from a review package and in-depth and supplementary articles
- Issues of a more conventional structure blending articles addressing several topics.
