Dear Mr. Mori,

I acknowledge with thanks receipt of your letter dated October 7, 2003 regarding a holding of the international seminar by the "Association for Communication of Transcultural Study".

We assume that among others the topics of the seminar will include such as international cooperation in the fields of nuclear energy and disposition of surplus weapons plutonium. I agree that these areas are important for promotion of our bilateral cooperation.

In this respect your kind invitation to Minatom of Russia to participate in the seminar sounds very interesting and we consider that Mr. D.F. Strelkov, the expert of our Department is a suitable candidate for participation in the seminar. As requested he is quite good in English and familiar with Japan-Russia cooperation in the field of FBR and utilization of surplus weapons plutonium.

In such a way I propose Mr. D.F. Strelkov as our representative and if you find his participation is appropriate please make necessary arrangements. We assume that ACT Foundation will bear all expenses relating to Mr. D.F. Strelkov's travel to Japan and his participation at the seminar.

Let me express my view that the seminar will be useful in promotion of further developments of our cooperation in the field of peaceful use of nuclear energy.

Sincerely yours,

V.P. Kuchinov
