JAPAN

Dear Mr. Mori,

After returning from the 15. Japanese-German meeting on Nuclear Power which was held in April 26-27, 2004 at Nagoya I would like to send you my very best greetings and in particular thank you very much for the nice gift that you sent to me through Mr. Ishizuka.

As the meetings now cover a 25 year period since the decision to organize these meetings during the INFCE conference in 1979 I have prepared a little documentation with many pictures on this occasion which I also presented to the participants during the opening reception. I include a compact disc and hope that you will find some reminiscences from the previous meetings in which you participated and also for the whole spirit of these gatherings.

With my very best wishes and kind regards
