Dear Ms. Ann Maclachlan,

I was glad to meet you in Paris last month. At that time, we could have a useful discussion even in a short time. I would also like to thank you for giving me the information on GSIEN, which I received with many thanks.

I read the report of Nuclear Fuel you wrote. It was written very well.

I am preparing for our new office, that is called UCN ! for short. I will inform you of its address, phone number and so on, when it is open.

As reported in the world once again, Kansai Electric has caused a careless incident. I am afraid that this kind of event would endlessly happen where there exist no scientific criticism in a real meaning.

I am looking forward to seeing you in the not-too- distant future.

Sincerely yours,

Kazuhisa Mori, JAIF
