

# Joint Conference of **17th International Toki Conference** on Physics of Flows and Turbulence in Plasmas and **16th International Stellarator/ Heliotron Workshop 2007**

**October 15-19, 2007**  
**Ceratopia Toki, Toki, Japan**

## Topics

Flows and turbulence in plasmas  
Transport and confinement improvement  
MHD equilibrium and stability  
Turbulence and transport  
Particle and power handling  
Divertors and impurity control/transport

Plasma heating  
Diagnostics  
Configuration optimization  
Status of experimental projects  
New devices  
Reactor studies

## Chairs of Committees

Advisory : **Osamu Motojima**

Program : **Carlos Hidalgo**

Local organizing : **Hiroshi Yamada**  
**Tomohiro Morisaki**
