24th International Toki Conference (ITC-24)

Expanding Horizons of Plasma and Fusion Science through Cross-Fertilization

Presentation Number:	xxx (P1-23, O3, I2, etc.)
Paper Title:	A Sample TeX Manuscript for 24th International Toki Conference
Corresponding Author:	Firstname LASTNAME
Affiliation:	University of Plasma
Full Postal Address:	322-6 Toki, Gifu 509-5292, Japan
Telephone:	+81-572-58-0000
Fax.:	+81-572-58-0001

A Sample T_EX Manuscript for 24th International Toki Conference

Firstname LASTNAME, Firstname M. LASTNAME¹⁾ and Carl F. GAUSS^{1,2)}

University of Plasma, Nagoya 000-0000, Japan

¹⁾*University of Fusion Science, Toki 000-0000, Japan*

²⁾*National Institute of Kakuyugo, Tokyo 000-0000, Japan*

The abstract should be 10 point justified type with a 5 mm indentation (both of left and right) and within the 200-word limit. It should be an explicit summary of the paper that states the problem, the methods used, and the major results and conclusions. It should also contain relevant key words that would allow it to be found in a cursory computerized search. The first line should be indented 5 mm from the left margin.

Keywords: Five to ten keywords or phrases should be given. Except in special cases, type all keywords in lower-case letters separated by commas

1 Introduction

The International Toki Conference (ITC) is an international conference for the discussion and presentation of research activities related to nuclear fusion and plasma. It has been held annually by the National Institute for Fusion Science in Toki city since 1989.

2 LIST OF TOPICS in ITC-24

1. Basic Plasma Physics and New Trends
2. Magnetic Confined Fusion (Experiments)
3. Magnetic Confinement Fusion (Theory and Simulation)
4. Fusion Engineering
5. Inertial Fusion
6. Applied Plasma Physics
7. Plasma diagnostics
8. Others

3 Paper preparation

Paper size must be A4 (21.0 cm × 29.7 cm). Authors using L^AT_EX should use the pfr package provided by the program committee of ITC-24:

```
\usepackage{pfr_itc24}
```

Text should be typeset in Times. The title should be in Times Bold. These fonts can be accessed by using either the standard times, mathptmx or recent txfonts package, as in

```
\documentclass
[a4paper,twocolumn,fleqn]{article}
\usepackage{amsmath} % optional
\usepackage{txfonts} % or times
\usepackage{graphicx} % optional
\usepackage{pfr_itc24}
```

author's e-mail: xxxxyyyzzz@u-plasma.ac.jp

Fig. 1 Sample figure. Letters in figures must be sufficiently large.

```
\begin{document}
```

...

The default Computer Modern fonts may be used as a last resort.

The document should be submitted in PDF format (or PostScript format). Any fonts other than the standard PostScript fonts (such as Times and Symbol) must be embedded in the document, and don't use national (e.g. Japanese) fonts.

The manuscript must include a concise abstract (less than 200 words), a complete list of references, figures and tables with captions. Each author's name is given in the order of first name, initial of optional middle name and last name, as in Carl F. GAUSS.

Equations should be indented by 10 mm from the left margin, as is

$$\tilde{f}(\mathbf{x}, \mu, E) = -\boldsymbol{\rho} \cdot \nabla f_M(\mathbf{x}, E). \quad (1)$$

Vector expressed by a Greek font should be written in Greek Bold; e.g., $\boldsymbol{\rho} = \mathbf{b} \times \mathbf{v}_\perp / \Omega$. For equations separated into multiple lines, the equation number should appear only on the last line.

Figures should be included directly in the document. All photographs must be in digital form and placed appropriately in the electronic document. All illustrations must be numbered consecutively with Arabic numbers. The size of a figure should be commensurate with the amount and value of the information conveyed by the figure. PFR accepts video and audio as separate files. Color printing of

figures is also available. If you want to use color figure on paper printing, this cost shall be billed to the authors. Place figure captions below the figures. The captions should be indented no margins. The abbreviation gFig.h for figure should appear first followed by the figure number and a period. Captions should be in 9 pt. Roman Font.

4 References

PFR follows the following citation style: For journal articles, authors are listed first, the volume number in bold, inclusive page numbers, and the year in parentheses. If you have any question for this style, please contact to the publication office of PFR (journal@jspf.or.jp). References should appear at the end of the article. The font should be 9 pt., aligned left. The words Referencesh should not head the section in Rapid Communications and Letters. All references should be indented no margin, with succeeding lines indented sufficiently to preserve alignment. The line space of this part should be 12 pt. PFR uses numerical notations in brackets for bibliographic citations. At the point of citation within the main text, designate the reference by typing the number in after the last corresponding word [1]. Reference numbers should precede a comma or period [2]. Two references [3,4], should be included together, separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1-4].
