

ITC28

The 28th
International Toki Conference on
Plasma and Fusion Research

Topics

1. Magnetically-Confined Plasmas
2. Inertially-Confined Plasmas
3. Fusion Engineering and Reactor Design
4. Basic Plasma Research and Plasma Application
5. Fundamental Theory and Simulation Techniques
6. Space and Astrophysical Plasmas
7. Applied Superconductivity and Cryogenic Systems

Chairs of Committees

International Advisory: Y. Takeiri
International Program: M. Sakamoto
Local Organizing: T. Mito

November 5-8, 2019

Ceratopia Toki
Toki-city, Gifu, Japan

National Institute for Fusion Science
National Institutes of Natural Sciences

Contact:

Conference Secretary : N. Hirano
