

# National Institute for Fusion Science

## Building Arrangement

### NIFS plot plan

- |  |                                    |
|--|------------------------------------|
| ① Superconducting Magnet System Laboratory | ⑭ Auditorium                       |
| ② Large Helical Device Building            | ⑮ Guest Housing                    |
| ③ Simulation Science Research Laboratory   | ⑯ High-Voltage Transformer Station |
| ④ Heating Power Supply Building            | ⑰ Cooling Water Pump House         |
| ⑤ LHD Control Building                     | ⑱ Helium Compressor House          |
| ⑥ Fusion Engineering Research Laboratory   | ⑲ Cooling Tower                    |
| ⑦ Plasma Diagnostics Laboratories          | ⑳ Warehouse                        |
| ⑧ R & D Laboratories                       | ㉑ Helium Tank Yard                 |
| ⑨ Motor-Generator Building                 | ㉒ Recreation Facilities            |
| ⑩ Central Workshops                        | ㉓ Gymnasium                        |
| ⑪ Research Staff Building                  | ㉔ Club House                       |
| ⑫ Library                                  | ㉕ Guard Office                     |
| ⑬ Administration Building                  |                                    |
