-- Innovative Science of Plasma and Fusion --

November 3-6, 2015
Ceratopia Toki, Toki-city, Gifu, Japan
http://itc.nifs.ac.jp

Scope
The International Toki Conference is a topical meeting dedicated to a specific subject related to plasma and fusion science. The series began in 1989 with the founding of the National Institute for Fusion Science and has been held on an annual basis ever since.

The last 10 years have seen great advances in the plasma and fusion sciences based on progress in basic physics and technology. These developments related to plasma and fusion sciences also accelerate innovative applications of plasmas in industrial, biomedical, agricultural, and other fields. With this background, we are planning the 25th International Toki Conference to explore new aspects in creating the future through the innovative sciences of plasma and fusion.

Topics
(1) Helical Plasma Research
(2) Tokamak and ITER-related Research
(3) Innovative Applications of Plasmas
   - Industrial/Chemical/Medical and Agricultural Applications -
(4) Basic Plasma Science - Laboratory and Space Plasmas-
(5) Fusion Technology Research
(6) Theory and Simulation Research
(7) Laser Plasma Sciences
(8) Plasma Wall Interaction Research
(9) Other Fields of Sciences
